Introduction

Scope of Application

The Basel III Pillar 3 disclosures contained herein relate to Westpac Banking Corporation, Mumbai Branch (“the Branch”) for the Quarter ended 31 December 2018. The Branch operates in India as a branch of Westpac, Sydney under the licence granted by Reserve Bank of India (RBI). The Branch has no subsidiary or joint venture to be consolidated in line with requirement of Accounting Standard (AS) 21 (consolidated financial statements) and AS 27 (financial reporting of interest in joint ventures). The Branch does not have any interest in insurance companies in India.

The Pillar 3 disclosures are compliant with Reserve Bank of India (the “RBI”) Master Circular DBR. No. BP.BC. 6/ 21.06.201/2015-16 dated 1 July 2015 on BASEL III Capital Regulations hereinafter referred to as “Basel III guidelines”.

The Branch operates as a scheduled commercial bank and is required to maintain capital ratios as prescribed by New Capital Adequacy Framework (NCAF) guidelines issued by RBI. The Branch is also required to comply with all applicable laws and regulations in India including guidelines issued by RBI and other relevant regulatory bodies.

Capital Overview

Capital structure

Tier 1 capital of the Branch comprises of interest-free funds from Head Office kept in a separate account in Indian books and statutory reserves. Deferred tax assets and Intangible assets have been deducted to arrive at Tier 1 capital.

Tier 2 capital comprises of general provision on standard assets and provision for country risk exposure. The Branch has not issued subordinated debt instruments or any other Tier 2 capital instruments.

The table below shows the Branch's capital resources as at 31 December 2018.

Total Eligible Capital	8,508,350	8,466,688

Capital adequacy

The Branch aims to hold sufficient capital to meet the minimum regulatory requirements on an on-going basis. The Branch's capital management strategy is:

- To comply with the Basel III Regulatory Capital requirements set out by RBI; and
- To minimize the possibility of the Branch's capital falling below the minimum regulatory requirement by maintaining a capital buffer (in excess of the Basel III minimum requirements) sufficient to cover Pillar 2 risks and the capital impact of stress scenarios.

The Branch's capital management is mainly guided by its current capital position, current and future business needs, regulatory environment including Basel III and strategic business planning. The Branch continuously focuses on effective management of risk and corresponding capital to support the risk.

As per Basel III guidelines, currently the Branch has adopted the Standardised Approach (SA) for credit risk, the Basic Indicator Approach (BIA) for operational risk and the Standardised Duration Approach (SDA) for market risk. Under the BIA, the Branch holds capital for operational risk equal to 15% of average of positive gross annual income over the previous three years. As at 31 December 2018 the Branch's Capital to Risk Weighted Assets Ratio (CRAR) stood at 69.43% as per Basel III. The Branch is adequately capitalised.

Capital adequacy ratios

Common Equity Tier 1 (CET1), Tier 1 and Total capital ratios (computed as per Basel III capital regulations)

The minimum capital requirements under Basel III will be phased-in as per the guidelines prescribed by RBI. Accordingly, the Branch is required to maintain minimum common equity Tier 1 (CET1) of 5.5%, minimum Tier 1 capital ratio of 7 %, capital conservation buffer (CCB) of 2.5% and a minimum total capital ratio of 9.0% as at 31 December 2018. Minimum total capital requirement including CCB is 11.5% as at 31 December 2018. The Branch's position in this regard is as follows:

%	31 December 2018	30 September 2018
Common Equity Tier-I Capital Ratio	69.37	58.12
Additional Tier-1 Capital	-	-
Tier 1 capital ratio	69.37	58.12
Tier 2 capital ratio	0.51	0.23
Total regulatory capital ratio	69.88	58.34

Capital Requirements

This table shows risk weighted assets and associated capital requirements for each risk type included in the regulatory assessment of the Branch's capital adequacy. The Branch's approach to managing these risks, and more detailed disclosures on the prudential assessment of capital requirements, are presented in the following sections of this report.

Credit Risk Management

Credit risk is the potential for financial loss where a customer or counterparty fails to meet their financial obligations to Westpac. Westpac maintains a credit risk management framework and a number of supporting policies, processes and controls governing the assessment, approval and management of customer and counterparty credit risk. These incorporate the assignment of risk grades, the quantification of loss estimates in the event of default, and the segmentation of credit exposures.

Structure and organisation

The Chief Risk Officer (CRO) is responsible for the effectiveness of overall risk management throughout Westpac, including credit risk. Authorised officers have delegated authority to approve credit risk exposures, including customer risk grades, other credit parameters and their ongoing review. A portion of consumer lending is subject to automated scorecard-based approval. Our largest exposures are approved by our most experienced credit officers. Line business management is responsible for managing credit risks accepted in their business and for maximising risk-adjusted returns from their business credit portfolios, within the approved risk appetite, risk management framework and policies.

The Country Risk and Compliance Committee – India (CRCC-I) has oversight of credit risk management within the Branch and includes the Branch CEO, representatives from the business and risk functions. It is responsible for the review and oversight of credit risk in line with the Westpac Group credit risk management framework and policies.

The India Credit Committee is the final Sanctioning Authority for all credit exposures booked in the India branch of Westpac Banking Corp. It has the authority to sanction credit exposures upto the local legal lending limits as applicable (currently Single and Group Borrower Limits).

Credit risk management framework and policies

Westpac maintains a credit risk management framework and supporting policies that are designed to clearly define roles and responsibilities, acceptable practices, limits and key controls.

The Credit Risk Management Framework describes the principles, methodologies, systems, roles and responsibilities, reports and controls that exist for managing credit risk in Westpac. The Credit Risk Rating System policy describes the credit risk rating system philosophy, design, key features and uses of rating outcomes.

Concentration risk policies cover individual counterparties, specific industries (e.g. property) and individual countries. In addition there are policies covering risk appetite statements, Environmental, Social and Governance (ESG) credit risks and the delegation of credit approval authorities.

At the divisional level, credit manuals embed the Group's framework requirements for application in line businesses. These manuals include policies covering the origination, evaluation, approval, documentation, settlement and on-going management of credit risks, and sector policies to guide the extension of credit where industry-specific guidelines are considered necessary.

Credit approval limits govern the extension of credit and represent the formal delegation of credit approval authority to responsible individuals throughout the organisation.

The India Credit Committee is the final Sanctioning Authority for all credit exposures booked in the India branch of Westpac Banking Corp.

Credit Risk: Disclosures for portfolios subject to the standardized approach

As at 31 December 2018 the Branch has not applied any ratings for the exposures under standardised approaches. All the exposures to scheduled commercial banks for the purpose of Pillar 1 calculation are risk weighted at 20% since these exposures are made to counterparty banks having capital adequacy ratio of 9% and above.

The Branch uses RBI guidelines with respect to usage of short term/long term issuer ratings set by the accredited rating agencies² for assigning risk weights for non-resident corporate entities and foreign banks, ratings issued by the international rating agencies such as S&P, Moody's and Fitch are used.
